

Problems

New players understanding where a character ranks

New players understanding beneficial matchups

New players understanding bad matchups

New players understanding the basics of the game

Solutions

Provide a tier ranking list of all characters for new players

When given a certain matchup we'll tell the user if it is beneficial for them or their opponent

We'll provide the user with basic gameplay as well as how the game works

Any other info that a new player may want or need when starting

Details

We'll use this app for pvp mode only
